ABOUT US

iConcepts + Partners (iC+P) is a Multidisciplinary Design Studio founded in 2007, with Interior Design at its core and an evolving practice across Architecture, Product Design and Bespoke Elements.

Under the creative direction of **Principal Designer–Founder Imran Khan and its Design Partners**, we translate client aspirations into distinctive and purposeful design narratives.

Our diverse portfolio spans **Hospitality, Residential, Commercial and Recreational** environments, shaped by context, character and human experience. Rooted in modern urban minimalism and understated elegance, our design language balances expression with restraint, and innovation with timelessness. Through intelligent planning, material exploration, artistic sensibility and meticulous detailing, we create spaces that are both functional and expressive.

We believe true luxury lies not in extravagance, but in thoughtful composition, refined craftsmanship and the meaningful interplay of every element. Our approach unites creativity with discipline, balancing aesthetics, functionality, budgets and execution. Every space is conceived to engage the senses, inspire connections and enrich the experience of living.

Our design ethos is the foundation of everything we create — DESIGN TO LIVE

OUR DISCIPLINES

INTERIOR DESIGN creating thoughtful, well-detailed and functional environments that enrich everyday experiences.

ARCHITECTURAL DESIGN Shaping built forms through context, proportion, materiality and spatial harmony.

BESPOKE ELEMENTS crafting distinctive furniture, lighting and interior elements that brings character and individuality to every project.

OUR APPROACH creating purposeful, cohesive and enduring designs, refined through context, creativity and detail.

TEAM iC+P

Team iC+P brings together Architects, Interior Designers, Visualisers, Technical & Execution Specialists, fostering a collaborative exchange of ideas, expertise and perspectives. This cross-pollination of disciplines allows ideas to flow seamlessly across interiors, architecture and art, resulting in richer and more resolved design outcomes. From concept development and material exploration to detailing, technical coordination and execution, our integrated approach unites creative thinking with technical precision. With design as our unifying discipline, we connect innovation with creativity to translate ideas into thoughtfully developed, people-centric and visually compelling environments that enrich the human experience.

FOUNDER - DESIGN DIRECTOR

Imran Khan is an Interdisciplinary Designer with over two decades of experience across interior, architecture, product and art. Rooted in **curiosity, restraint and an Uncompromising attention to detail**, his work explores the interplay of **space, material, proportion, craft and human experience**. He believes great design is found in **clarity, purpose and precision**—where every element is considered, every detail has intent, and the whole becomes greater than the sum of its parts.

DESIGN PHILOSOPHY

"Design is life—the beginning, the blueprint and the language of everything we experience."

Design should not merely occupy space. It should create an experience, evoke a response and enrich the way we live.

CO-FOUNDER

Prachi Laud is a Designer and Co-founder of iC + P, with over two decades of experience across interior design, project coordination and lighting. Rooted in **curiosity, sensitivity and an intuitive understanding of people and space**, her work explores the interplay of **light, materiality, nature and human experience**.

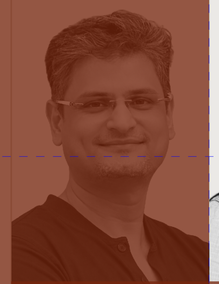

Her approach brings together **design, functionality and technical understanding**, with a particular sensitivity to atmosphere, emotion and well-being. She believes thoughtful design lies in creating environments that are **considered, intuitive and deeply human**.

DESIGN PHILOSOPHY

"DESIGN TO LIVE — because every line drawn shapes a life, woven into everything we experience."

Design is not merely about creating spaces. It is about shaping how we feel, connect and live—where every line, detail and decision becomes part of the experience.

DESIGN PARTNER

Archna Shinghal is an **Architect and Design Partner** at iC+P, with over two decades of experience shaping distinctive architectural, interior and design experiences. Rooted in instinct, curiosity and a free-spirited approach, her work explores the interplay of space, material, craftsmanship and human emotion.

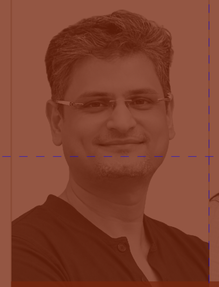

Her practice is defined by layered architecture & interiors, thoughtful material palettes and a keen eye for detail, balancing contemporary minimalism with understated elegance. Her research-driven approach, instinctive design sensibility and love for art bring a distinctive and personal character to every project.

DESIGN PHILOSOPHY

"DESIGN IS HUMAN — it breathes with emotion, is shaped with intention and speaks with a soul of its own."

For Archna, design is a living expression of human experience—shaped by emotion, guided by intention and brought to life through detail, material and craft.
